Feedback from pupils:-

I didn't know science could be so interesting. Liam

Today I really liked it because I actually met a real scientist

It was the best science lesson I have ever done and it was really fun.

IT'S FUUUUN! X100

Disgusting and WOW!!!

The best thing I have done!!!

I really liked science today. I am much more into it now. Harry A

Feedback from teachers:-

Dear Dr Burns,

Thank you so much for spending time in 4A this afternoon. It was inspirational! From the children's comments and questions it was clear that they were engaged and were able to access a topic of such enormous scale.

Great introduction. Children were really focussed and interested - which is no easy task! Excellent ideas and examples which really inspired them too.
Thank you!

I think that this has been a valuable experience for the children - if only to combat stereotypical views of who or what scientists are! Can't have too many role models in this subject.
Thank you.

Dear Lizzie,

What a fab day you gave our school yesterday. We got hugely positive feedback from the children and the staff and I was very impressed with the quality of discussion when I popped in during the afternoon. One of the best things about this type of event is that it provides an opportunity for children who are usually low achievers to shine, and that was certainly the case yesterday. And I understand you were impressed with our Year 5 class - that is CERTAINLY a first!!! Anyway thank you both very much and please pass on our thanks to your sponsors. Rosey (Head Teacher)
